Education

Dr. A.P.J. Abdul Kalam Technical University (AKTU)

Bachelor of Technology in Computer Science, SGPA: 8.84/10

Ghaziabad, IN

Sep 2022 – Jul 2026

Central Board of Secondary Education (CBSE)

Intermediate Percentage: 93%

Ghaziabad, IN

Apr 2020 – Apr 2021

Experience

Programmer Analyst Intern / Cognizant Technology Solutions – Chennai, IN

Feb 2026 – Jun 2026

- Completed hands-on training in SDET, Selenium, TestNG, Spring Boot, Angular, Git, and software testing fundamentals.
- Developed and executed automated test cases, practiced version control with Git, and gained exposure to enterprise application development and testing workflows.

Programmer Analyst - GN / Cognizant Technology Solutions – Kolkata, IN

Jul 2026 – Present

- Working on enterprise application development, maintenance, and issue resolution while collaborating with cross-functional teams to deliver high-quality software solutions.

Projects

Campus Connect | Spring Boot, Angular, SQL, Selenium, TestNG, Postman, SoapUI

Feb 2026 – Jun 2026

- Developed an internal social networking platform enabling employees to connect, share updates, and discover job opportunities within the organization.
- Built the application using Spring Boot, Angular, and SQL, and ensured software quality through automated UI testing with Selenium and TestNG, along with API testing using Postman and SoapUI.

E-Portal for Case Management Hearing | ReactJS, Node.js, Express.js, MongoDB

Feb 2023 – May 2025

- Crafted a scalable digital court system with 40+ modules covering scheduling, case tracking, and digital filing.
- Designed role-based dashboards for 4 user types: clerk, admin, advocate, and litigant.
- Devised a searchable database for 260,000+ advocate enrollment records, increasing data accessibility for the UI/UX team and reducing query resolution time by approximately 30 minutes per query.

Weather Tracking App for Farmers | ReactJS, Node.js, Express.js, MongoDB, Google Maps API.

May 2023 – Jul 2024

- Integrated Google Maps for geo-targeted weather insights across 20+ regions.
- Delivered 3-day and 7-day forecasts using OpenWeather API with temperature, humidity, and rainfall data.

Technical Skills

- Programming Languages:** Java, Python, JavaScript, TypeScript, SQL, HTML5, CSS3
- Web Technologies:** Spring Boot, React.js, Node.js, Express.js, Angular
- Testing & QA:** Selenium WebDriver, TestNG, Postman, SoapUI
- Databases:** MongoDB, PostgreSQL, SQL
- Developer Tools:** Visual Studio, Visual Studio Code, Eclipse, IntelliJ IDEA, Redis, Docker
- Cloud & Deployment:** AWS (Amazon Web Services), Firebase, Netlify, Render, Vercel
- Version Control & Collaboration:** Git, GitHub, GitLab
- Methodologies:** Agile Methodologies, SDLC, STLC

Certifications

- DevOps and Cloud Architecture – AWS**
Executed cloud infrastructure deployment and lifecycle management using core AWS services such as EC2, S3, and Lambda. Implemented CI/CD pipelines for automated delivery.
- Cybersecurity – Cisco**
Completed intensive training on network security principles, conducted threat analysis simulations, and applied secure communication protocols in practical environments.

Professional Development

- Open-Source Contributor:** Resolved bugs, tracked issues, and implemented minor features across 3 private full-stack repositories.
- Campus Code Circle Member:** Solved 100+ data structures and algorithms problems collaboratively in weekly peer-led sessions over 6–8 months.
